TAXPAYERS PERFECT ORGANIZATION

The Nye County Taxpayers' association, recently organized by the taxpayers of Nye county and which organization has been mentioned on these pages before, perfected its organization at a meeting held last week and at which some thirty of the taxpayers, large and small, were present.

The organization is for the purpose of creating public interest in the question of not only the assessment of taxes but also the most economical and efficient expenditures of the public money thus paid into the hands of the county officials. It is also the intent of the members of the organization to get in close touch with the assessment rolls and try to establish an equitable and fair and just apportionment of assessments; also to keep in close touch with the expenditures of the money and in an advisory capacity assist the county officers in getting the most out of the money expended. It is also proposed to suggest and endorse legislative enactment in furtherance of the work of the organization and suggest repeals of laws now standing which appear unfair to the taxpayer.

All taxpayers, whether the amount paid in is small or large, are eligible to membership, and it is hoped the small taxpayer will take as much interest in the organization as the larger ones, for the benefits to be derived will be proportionately as great to one as the other, and in order to make the organization as effective as it can be made all who are taxpayers should be members. All who desire to join can submit their name to the secretary.

Active work of the association was instigated at a meeting of the executive board held at the office of the president of the association, H. R. Cooke, yesterday afternoon. Plans were outlined and E. P. Truesdell of this city was selected as secretary-manager. It was also determined to secure the services of an efficiency expert from out of the state for a few weeks to assist in getting the work well started and to advise as to the most effective manner of accomplishing the objects for which the association was formed.

There are at the present time many associations of a similar character organized in counties and cities throughout the country, and most beneficial results have been obtained from the efforts of these organizations in familiarizing themselves with the work of the county officials and advising with them as to the most economical method of expenditures of public moneys and maintaining a wholesome supervisory and advisory attitude in such matters.

There is a great deal of preliminary work to be done before direct benefits can be expected and some weeks must be spent in getting the work under way.

The officers of the association are: President, H. R. Cooke; first vice president, W. H. Blackburn; second vice president, J. G. Kirchen; Secretary-manager, E. P. Truesdell; treasurer, C. F. Wittenberg; executive committee, H. R. Cooke, chairman; F. A. Burnham, T. A. Frazier, J. E. Monahan of Tonopah and J. B. Humphrey of Goldfield. Offices are located at 505 State Bank building.

(By Associated Press.)
SEATTLE, Sept. 28.—The steamship Victoria arrived today from Nome with more than \$1,000,000 of new gold. F. REPUBLICAN BILLS IN FAVOR OF THE WEST

(By Associated Press.)
DENVER, Sept. 28.—Democratic tariff bills invariably favor the south, Charles W. Fairbanks, Republican candidate for vice president, charged in a speech at the Auditorium here last night. Mr. Fairbanks was introduced by Charles W. Waterman, of Denver, former Republican candidate for United States senator. Governor George A. Carlson, many state officers and scores of men prominent in Republican circles in Colorado were in attendance.

"This great intermountain region, the same as other portions of our common country, flourishes best when the Republican party is in power," said Mr. Fairbanks. Republican policies are not sectional, while Democratic tariff bills invariably favor the south."

Better lighted windows sell more goods

At no increased cost for current you can make your show windows just twice as bright as they now are. And without the glare which hurts people's eyes and really drives them away.

X-RAY REFLECTORS

The Show Window Searchlights

are the most powerful reflectors made and they last indefinitely. They hide the glaring lamp, and on account of their scientific design, concentrate all the light on the merchandise on display. None is wasted on the ceiling or sides of the window nor on the sidewalk.

These reflectors are the standard for window lighting. Marshall Field & Co., Chicago, used 1500 X-RAY Reflectors constantly for thirteen years and when a few of these were tested by disinterested engineers in Cleveland it was found they had not lost one per cent in reflecting efficiency. X-RAY Reflectors are the only pure silver plated reflectors which last indefinitely.

Free Demonstration

We'll show you X-RAY lighting any evening you say in your own windows. Nothing will convince you more quickly of its wonderful superiority. It is a necessity to any merchant. Phone us. Ask for booklet, "Show Window Searchlights."
